

FROM THE DESK OF COUNCILMAN TREVIÑO

Dear Neighbor,

Thank you to all the residents who attended the District 1 Community Safety Forum last weekend. Folks were able to discuss their safety issues directly with City Manager Erik Walsh, SAPD Chief William McManus, and Homeless Administrator, Morjoriee White. Those in attendance found Ms. White's presentation on District 1 homelessness quite informative, so [I've linked her slides here](#). You can also [click here to download the Department of Human Service's Homeless Resource Guide](#). The guide contains an expansive list of organizations who help with issues such as utility assistance, mental health assistance, emergency shelters, and more.

On April 4th, City Council will vote on accepting the Urban Lighting Master Plan lighting guidelines for bond projects and capital projects, where applicable. I have been vocal about the need for such a plan because lighting plays a vital role with regard to public safety, accessibility, place-making and our quality of life. Please attend the City Council A Session next Thursday at 9:00 AM at 114 W. Commerce St. if you are interested in learning more about the plan. You can also click [here](#) to read the Urban Lighting Master Plan background.

Last, I invite all District 1 residents interested in the Short Term Rental (STR) ordinance to ask questions and provide valuable input that will help gauge the impact of the ordinance. The event will take place at the District 1 Field Office (1310 Vance Jackson) on April 15 at 6:30pm. Any initial feedback you want addressed in the presentation can be emailed to Chrissy.Mccain@sanantonio.gov. [Click here to download the event flyer](#). See you there!

Sincerely,

District 1 Visits the Assistance League of San Antonio

There are so many things to love about District 1, and the Assistance League of San Antonio is definitely one. I had the opportunity to visit their facility and learn more about the Operation School Bell program, which connects students across 80 area Title 1 schools to resources such as new clothes, shoes, books, and other essentials. Each student even gets their own personal shopper who helps them pick out a new wardrobe, so they have the confidence they need to succeed.

I hope you will visit the lovely ladies who all volunteer their time to staff the thrift store that helps fund great programs like Operation School Bell. They will be holding their Art and Accessories Fundraiser on April 15th. [Visit their Facebook page to learn more](#).

Climate Action and Adaptation Plan timeline extended for revision, additional public input

The Climate Action and Adaptation Plan will extend its timeline to

allow for additional revisions and public comment. City Council is expected to consider the plan this fall.

The CAAP includes strategies for reducing San Antonio's greenhouse gas (GHG) emissions that lead to a warming climate, and serves as a pathway to meet the objectives of the Paris Climate Agreement, which City Council supported with a resolution on June 22, 2017.

Additional public comment and stakeholder outreach will occur through April 25. A revised plan is scheduled for release to the public on May 30. The draft version of the plan generated a large amount of public comment, which will be reviewed and considered during the revision process.

Feedback is encouraged online at saclimateready.org or by emailing sustainability@sanantonio.gov. The SA Climate Ready website includes a summarized plan "[Snapshot](#)," and [Frequently Asked Questions](#).

While a significant amount of community feedback will be reflected in the plan, the goals and policy framework will remain intact. Over the next few weeks, material will be released on saclimateready.org that documents comments received to-date and a high-level summary of revisions and additions to be made. Updates will include:

- Condensing language to increase readability
- Clarifying the intent of the equity framework
- Adjusting and clarifying strategies based on feedback
- Including the business case of action
- Identifying barriers or challenges associated with strategies
- Identifying strategies that are a part of current City plans
- Detailed explanation for plan implementation and governance
- Public engagement summary

The revised plan will undergo a review period this summer, followed by an approval process leading to City Council consideration. City Council adoption of the plan would not trigger regulations. Each strategy will be evaluated and reviewed through its own processes.

Councilman Treviño brings City staff to seniors at Parkview Apartments

I had a great time talking to all of my friends at the San Antonio Housing Authority Parkview Apartments this week. I brought along the San Antonio Police Department, Via Metropolitan Transit Via Metro Center, San Antonio Parks and Recreation Department, Development Services Department City of San Antonio, and Mr. Hector J Cardenas to provide information on a wide range of topics.

The seniors there are extremely engaged and are working with District 1 to improve the quality of life around the San Pedro Springs Park area.

Meet the District 1 Team: Christine Gutierrez

Hailing from the beautiful small town of Karnes City, Christine joined the District 1 team four years ago to facilitate solutions for constituents. She now oversees thousands of constituent cases annually as the Director of Constituent Services along with coordinating community events like the District 1 Back to School Health and Wellness Fair.

Christine graduated from the University of Texas at San Antonio with a degree in criminal justice. Before coming aboard, she worked with the SAPD Crisis Response Team and the Battered Women & Children's Shelter. Christine and her cats, Samwise and Frodo, are proud Tobin Hill residents. In her free time, she can be found spending time with her family, rooting for the Spurs, or listening to live music.

She is a compassionate and caring individual and excels at connecting District 1 residents in need with City and other resources. Way to go, Christine!
